PART TIME FABULOUS

Starting a National **Conversation** about **Clinical Depression**, the **Stigma** around it and **Recovery**

PART TIME FABULOUS weaves a narrative of love, pain, and healing with real-life stories in an exposé on living with Clinical Depression. Mel (Jules Bruff) falls in love with Don (Bjørn Johnson) while on vacation. So taken with each other, he moves in twelve days later. It's not until then that her deep-rooted and untreated Clinical Depression reveals itself. Mel's inability to deal with her illness pushes a wedge between them and ultimately breaks them apart. She is forced to face her disease alone. In the quest to heal herself Mel sets out to make a documentary that exposes her truth, and the heart-felt truth of others dealing with Clinical Depression.

"Part Time Fabulous offers insight into the multidimensional impact of clinical depression on the people living with it and others in their lives. This film invites the viewer into the dark emotional complexities of the deepest lows as well as the hopeful resolve and empowerment of recovery. Part Time Fabulous casts off the blinders of shame and shines a bright light on the experience of mental illness, which is so common to humanity and for which everyone deserves quality care. - Active Minds, Inc.
